PICKUP SWITCH	Fender 5 way	
COIL SPLIT	-	
KILLSWITCH	-	
POTS	CTS	
JACK	Switchcraft	
BLENDER	2nd tone knob	
OTHER		
STRINGS	D'Addario NYXL 10-46	

~A NOTE FROM THE BUILDER~

Hello Player.
I am passionate about my craft and I truly strive to create legacy instruments using unique, high end woods, quality finishes, and top shelf components. Each one I build, I keep for a year or more to allow for seasonal changes and the "settling in" process which makes for an instrument that plays rock solid and has that certain played-in feel most players recognize from the first riff.
I hope you enjoy this guitar as much as I enjoyed building it.
